Double Horse	Out Door Helicopter	9101	Double Horse 9101 large Outdoor 3.5 Channel Radio controlled large helicopter with Gyro has a flying range up to 80m with a flying height of 100m. Built with durable alloy frame including metal balance bar for extra rigidity and this model comes in two colours Black and Silver and Black and Yellow. Includes A/C charger, 90-100 mins charging duration with 12-15 minutes flying time. 7.4v Li-ion Battery with self-protection technology	DH9101 Features, High Efficient Life Like Contour Design, Super Strong Alloy Structure, Stable Flying with Electronic Fine Tuning & Advanced Intelligent Balance System, New Digital Full 3.5 Channel Control, Speed Ability Aided by a Large Rear Propeller. Built in Gyro for stability. <ul style="list-style-type: none"> • Flies over 100m high • 2 powerful 180 main motors + N20 tail motor • Newly designed super strong crash worthy propeller • Altitude and rotor speed control • Flight stabilizing system • Super lightweight airframe • Brake for easy landing • Up to 80m radio control range • Suitable for flying in no wind conditions 	120.00	95.00 (Special Price Limited Stock)		Product Size: L 71 X W 27.5 X H 53.5cm 6 Pcs per box (Extra Large Heli)	
			4 Channel Coaxial Helicopters						
Swann or Syma	Sky Slider	S008G	SWTOY-SLIDER-GL Swann Sky Slider features 4 channel performance with built-in gyro system makes flying more steady, fast & adventurous. High quality and unique design and it is very tough and crashworthy. Swann Sky Slider comes with attractive Purple & White colour canopy and can move sideways. Equipped with night front LED light for convenient flying in the dark. Bonus accessories include extra main rotor blades, tail rotor, screw driver, landing pad with points, USB cables and colour English manual with specific flying instructions. Colour available in Purple and White only	Newly released advanced 4 channel Gyro version is extremely sturdy and fantastic to fly. Material: ABS plastic, electronic components and alloy structure.- Battery for helicopter: built-in 3.7V 150mAh rechargeable lithium battery. <ul style="list-style-type: none"> - USB charging. - Charging time: about 30 minutes. - Flying time: about 8 minutes. - Flying height: about 10m. - Remote control range: about 8-10m. - Smooth hovering performance, long battery life and easy to operate. - Suitable for indoor flying. - Suitable for intermediate flyers. 	60.00	49.95		Product Size: 18.5x9x4cm Box Size: 40.5x23.9x7.2cm (Small Micro heli)	
Foda	F417		This latest new 4 channel Gyro version equipped with 2.4 Ghz radio controller allows up to 9 people to fly simultaneously and in large areas without interference. It has realistic flying characteristics with side movements due to the servos and pitching of the blades. Durable plastic canopy & steel body is almost indestructible in any crash, perfect for very first time flyers. Can be flown outside in no wind conditions. Flying range more than 10m.	Supplied with removable rechargeable battery & USB charger. Additional batteries can be purchased. Charging time 15-20 mins with 8-10 mins flying time. F417 is an ideal helicopter to learn the controls & movements of a 4 channel, before trying the big ones. Previous model shown. New improved model available in 3 Colours Red, Blue & Bronze.	69.95	55.00 (Special)		Size: L 21.5 x W 5.3 x H 9.5cm

	AVATAR	YD711	<p>20th Century Film Certified, and inspired by James Cameron's movie Avatar, this 4.5 Channel helicopter is equipped with a 2.4Ghz radio control system with built-in GYROSCOPE. RC Helicopter has precise code pairing and strong anti-jamming system. Main lights and colorful Navigation Lights are useful to fly in the dark and can be controlled remotely to switch on/off by using the transmitter.</p>	<p>Twin Coaxial structure with stable flight, prompt reaction, sensitive operation Function: Up / Down, Forward / Backward, Turn left / right, Drift Sideways 360 Degree accurate localization, Hovering, Suitable 14+ years Can fly outdoors in calm no wind conditions</p>	149.00	110.00	N/A		
			5 Channel Outdoor Helicopters						
Extreme	Night Ranger	X350	<p>Extreme X350 Night Ranger Windmaster Series 2, 5 channel coaxial helicopter is designed to fly outdoors. These are seriously powerful, fast and agile outdoor coaxial helicopters with a patent design that can handle winds up to 13 Km/h, thanks to powerful Neodym magnet motors with pitching main rotor blades, equipped with an additional powerful tail rotor, which makes it 5 channel. It flies outdoor better than any other coaxial helicopter thanks to 5 channel technology, 5th channel to activate the rear tail rotor when required, which makes the helicopter achieves top speed. Series 2 has an improved and sturdier landing skids and an attractive canopy plus digital trimmer controls in the transmitter.</p>	<p>Motors: Electric RK180W * 2 pcs + N30, 1Current controller output: built-in Gyro 5-in-1, Servos, Battery: Li-poly 850 mAh, 11.1V, The range of equipment: more than 1 km, Speed 40 Km/h Transmitter: 5 Ch RC 2.4 GHz GFSK & Receiver 5 CH, 2.4Ghz 5-in-a GFSK, flying range 600m. Can withstand crashes due to the design of the structure and rigid materials with excellent heat dissipation through the frame. Equipped with an electronic fuse for auto circuit protection. When flying outside wings should be folded. Excellent hovering capability due to twin rotor blades system, yet performs outdoors similar to a single rotor helicopter with stability & ease. Available both Series 1-350A or Series 2-X350. Both models are amazingly stable, fast and fantastic to fly. Available in Mode 1.</p>	Series 2-\$250	Series 2- \$189		<p>L: 510 mm, H: 245 mm & Tail dia: 70mm. Weight 470g 4 Pcs per Box</p>

Single Rotor 2 & 3.5 Channel Helicopters									
Skytech	Auto Cruise	M19	M19 is a Mini Rechargeable 2-CH RC helicopter has a removeable battery design for longer flying, and has auto cruise, which means the helicopter will only go forward when the right hand joy stick is either turn to left or right. It is challenging to fly and certainly ot for beginners, but will immense thrill to experienced flyers. This can also be used as an introductory helicopter for single rotor flying. It can fly up and down, anticlockwise rotation, clockwise rotation with forward movement. Built-in gyro for accurate positioning Low voltage protection to protect the battery from damage. Colors:Red/White and Black/Orange	Remote control powered by 4 x AA batteries (Battery not included) Function: Up, Down, Anticlockwise Rotation, Clockwise Rotation •Battery: 3.7V 100mAH Li-poly •Charging time: About 25 minutes (USB charging) •Flying time: About 6-8 minutes •Controlling distance: About 10 meters Note: Not suitable for children under 14 years	45.00	29.95 Super Special		Size: L: 210 x W: 50 x H: 90mm	
Double Horse	Air Max	9103	The Double Horse 3.5 Channel Air Max is a beautifully designed Single Rotor structure helicopter built with a lightweight alloy frame for durability. The High tech Servo and Gyroscope System gives this heli a nimble and stable flight ability. It has Quick/Slow toggle buttons beside the throttle to change the speed modes. This single rotor heli flies more aggressive and faster than your regular co-axial helis. The durability for the 9103 is top-notch due to its highly flexible balance bar and blades. It also has a bright LED headlight for flying in the dark. Recommended only for experienced flyers. Indoor use only. Approximate range: 10m-30m.	3 Selectable Frequencies, Let's You Fly Up To 3 Helicopters At Once NEW Single Blade Structure NEW Metal FrameBody for extra durabilities NEW Gyroscope System for simpliest controls and stability with Awesome Look and Design Inbuilt rechargeable battery type: 3.7v 300mAh Li-ion. Approximate USB recharging time from flat to full capacity 20 minutes with 8-10 mins flying time. Bright strobing multi-color LED headlights! Auto Stable & Precision Speed Small Size Provides Agility and Speed Made of Unique Material to Withstand Crashes Super Wide Infrared Control	70.00	49.95 Special		Rotor Diameter: 225mm. Overall Length: 250mm. Height: 65mm. (Small Micro heli)	
Syma	Assault	F4	The Syma F4 Assault 3Ch 2.4G Single Blade R/C Helicopter is ideal for beginners to get experience in single rotor flying. The Syma F4 Assault remote control helicopter is unlike others it is very easy to fly. This makes the helicopter easier to control in the air and more stable due to an increase in wind resistance. The Syma F4 Single Rotor helicopter with Gyro is the next level up from the co-axial helicopter. The single rotor will enable you to fly faster and be more agile in the air. This model is for indoor use but the single rotor design also enables you to fly outdoors on calm days. It's addictive to fly and can be piloted inside or out with great ease.	The 3ch RC helicopter with gyro auto stabilizes during flight and allows you to go up, down, left, right, forward, and backward3-channel movement. Single blade design, Enhanced wind resistance & Gyro stabilisation technology Double protect safety cut-out USB charging, as well as a 2.4G operating frequency for enhanced control over a 30 metre range. Rechargeable 3.7v 150mAh LiPo battery •Flying Time: Approx. 6-8 minutes •Charging Time: Approx. 30-40 minutes Colours Red or Black depending on the availability.	70.00	55.00		Length: 21.5cm Width: 4cm Height: 9cm	 F4 2.4G

Syma		F3	Take to the skies with the Syma F3 4.5CH 2.4GHz RC Helicopter! This stylish RC Helicopter has a single main rotor and an internal gyro for precise movement and increased stability whether flying or hovering. Syma introduces its newest F3 4 channel fixed pitch helicopter! If you are familiar or have flown the F fleet of choppers, you'll know exactly how stable it is! Even beginners can fly easily. It can go forward, backward, up, down, left, right, strafe left, strafe right and hover. There is no assembly necessary, so all you have to do is charge it and then its ready to go! Best of all, it comes with two rechargeable batteries so you'll always be ready to fly! The Syma F3 4.5CH 2.4GHz RC Helicopter is a must have for fans of helicopters who want to pilot a traditional RC helicopter with all the advanced features!	The new F3 is equipped with all the awesome features you'll come to expect from Syma with new features such as onboard gyro, fixed pitch rotor head, and a 2.4ghz LCD transmitter. •4CH Control •Gyro Stabilization •Single Main Rotor •Durable Frame •LCD On Transmitter • 2.4 GHz Transmitter •2 3.7V LiPo Batteries •USB Charging Cable And Charger •Spares Blade 	79.00	69.00		Length: 25cm Width: 6cm Height: 9cm	
	Lofty	Single Rotor Sports Heli	2.4GHz Single Rotor 4 Channel Outdoor Sports Helicopter (Ready To Fly) Based on the Twister 400 Sports Helicopter, this 4 channel heli is an ideal choice for the intermediate pilots as it features professional 4-channel operation and stable flight characteristics. This heli has an extremely attractive canopy & equipped with a 2.4GHz 4 channel radio. Beginner and advanced flight modes, powerful LiPo battery and LiPo charger included. The ideal introduction to outdoor R/C helicopters. Remote range 100m with 10 minutes flying time. Can fly in slight wind conditions. Extremely easy to fly.	Fixed pitch helicopter for intermediate and advanced pilots. Small and lightweight, it can be flown indoors or outdoors in calm conditions so almost anyone can enjoy the fun of R/C helicopter flight. Swann	Quad Starship	SWTOY-QUADST	Take control of All new Swann Quad Starship for an RC flying experience that's out of this world. Equipped with Swann's Easy Fly Gyro system, 4 axis and propellers, the Quad Starship is simple to control and is designed for easy multi-direction maneuverability including up, down, forward, backward, sideway movements and left and right turn) with flip and stunt tumbles. 2.4 GHz RC Quad Copter is an extremely stable and easy to fly. Indoor & Outdoor Flying, 4D Multi-Directional Control. LED lights for night flying. Slow & High Speed Modes with 3D Flip functions. Up to 100M transmission. Rotor guards for added protection.	<ul style="list-style-type: none"> •4 axis and propellers •Lightweight construction •Built for indoor flying •Performs amazing 4D stunts and tumbles •2.4 GHz wireless control •Strong indoor signal up to 100 m (330 ft.) •Easy Fly Gyro technology •6 way multi-directional movements: up, down, forward, backward, left and right •Charges off the remote control or USB port •Fully recharged in less than an hour •Built-in 3.7 V 150 mAh Li-poly Extremely sturdy. 8 - 10 mins flying. USB charger and spare rotors included	89.95	59.00		L:24cm x W:22cm x H:6.3cm Weight: 263g	 
Syma	Explorer	X5C	This amazing all new Camera Quad Copter not only able to take pictures and make videos, the X5C is also able to stream live footage to your mobile device via Wifi! It is supplied with a set of extended legs and clip on blade protectors with power being supplied via the included 3.7V 500mAh LiPo battery pack which can be charged via the supplied USB charger while the control and movement is controlled by a neat looking 2.4GHz handset. It has two sets of lights underneath to help with direction. The X5C is a great gadget for exploring the house, office or garden! Function:up/down,left/right sideward fight,forward/backward,turn left/right,with gyro/flash lights,A 360-degree 3D and special functions(continuous rolling	Built in video/stills camera Battery:3.7V 500mAh Li-poly Charging Time:About 70 mins(USB charging) Flying time:More than 8 minutes Controlling Distance: About 50 meters	189.00	149.00		Size:31.5 x 31.5 Height: 7.5cm	 
			Gliders, Planes & Jets						
Dynam	Free Flight		Dynam is well known in designing and manufacturing hand-launched Glider , and supplied them in the highest quality at competitive prices. Once again they have raised the bars again and delivered us an innovative and stunning product once again! The detailed factory-painted Hawk Sky Mini Glider looks stunning in the air and closely resembles a real airplane.	It is made from high impact EPP crash resistant foam, so it is highly durable and stable, perfect for beginners and advance users. Small enough to take with you anywhere and selling at bargain prices, making this the best Glider in the market yet. Durable and lightweight Factory painted to the best details possible Small and affordable High quality EPP Foam State of the art aircraft designs	29.95	19.95		Wingspan: 500mm (19.7in) Overall Length: 495mm (19.5in) Flying Weight: 45g	
Huale	Mini PIPER	J3 CUB	This Mini J3 Cub is an absolutely enjoyable to fly Indoor or Outdoor when there is no wind. It is a 2 channel Radio Controlled plane which is extremely easy to fly high in the sky. You need to go to a park as the plane can move very quickly. Once you get the hang of the joysticks, you will be off to a flying start. This J3 cub is extremely rugged and durable and won't break easily.It comes with a USB charger and quick charging gives you 20-30 mins flying time. Color:Yellow	2 Channel Radio Controlled Material:EPS foam Aircraft Weight:22g Aircraft length:250mm Wingspan:330mm Charging time:30 minutes Flight Time:20-30 minutes Control Range:80m 150mah lipo Controller Battery:6-AA	79.95	69.95		Aircraft Weight:22g Aircraft length:250mm Wingspan:330mm

Tanks									
YED	Amhibious Tank		Easy to operate.Transforming Amphibious Tank with Water Cannon and 4-Wheel Drive. Conquer land and water in style.On land, in water,inside the house! Take fun, excitement and a little mischief with you wherever you go. This RC Amphibious Tank lets you drive over land and plow through water all while squirting your friends and foes with the water cannon or with pellets depending on the model. With the tank's powerful 4-wheel drive and independently controlled left and right wheels, you can get where you're going in a hurry and pull off 360-degree spins on the fly. Ready to take the plunge? Drive straight into your nearest river, lake or swimming pool, fold up the wheels, fire up the twin propellers, and zip through the water! Got a target in your sights? Fill up the water cannon before you do battle on land, or simply attach the 82-cm long hose when you're in the water.	Type Remote Control Color Green, Brown or Grey Material plastic and alloy Charging Time Initial about 4hours Remote Range up to 80m Playing Time up to 25minutes Battery 7.2V 700mAh Battery (included) Functions support forward, backward, left, right and 360 degree spins, etc. Water resistant. 	89.00	79.00		Tank: Width: 22.5cm; Length: 25cm; Height: 18cm Water Cannon: Length: 18cm Water tube: Length: 82cm	
i.Spy Tank			This amazing i.Spy Tank is operated by your iPad, iPhone or iPod. Built in mic transmits sound back to your device in real time, Camera is manually adjustable & streams live video and takes still photos, Night vision's undetectable infrared light lets you see items in the dark, Generates its own wireless connection for your device and has a range up to 60 m unobstructed, explores up to 30m around walls into other rooms. Use the on screen driving arrow controls to steer your tank & device's accelerometer to make it like a steering wheel in your hand.	Go to App Store & Search for "i-spy toys" App, download and install it (Free Apps)! Turn on the product, Go to setting and turn on wi-fi, Select the SSID address of your tank, Go to the control interface and the Spy War Begins!! Can be operated by your iPad, iPhone or iPod (2nd, 3rd, 4th Generation). Playing time: about 80 minutes Controlling distance: about 30 meters Runs on 6AA batteries (not included)	149.00	140.00		Product size: 23.5 x 19 x 12 cm Box size: 36.3 x 24 x 22 cm	
SOS	Snow Leopard		Snow Leopard War Tank: All driving wheels suspension system - 7 way movement, 320 degrees turret rotation, Main cannon fires 6mm BB's. Shen Qui Wei	Racing Boat	XIPHIA5	If you have a fear for things that go fast then the Davy Jones Boat isn't for you. On the other hand, if things that skim the water at blistering speeds tend to excite you, then you'll probably find this rechargeable remote control RC boat right up your alley. This RC speed boat includes a high capacity rechargeable battery pack and quick battery charger for endless hours of hassle free fun These Boats are fast and handles superbly in the water.	Forward, left turn and right turn. Battery: boat with 7.2V/700mAh Ni-Cd battery, controller use 3*AA batteries (not included) Charge time: 2hours Play time: 8-12min RC distance: 40-50m This RC speed boat includes a high capacity rechargeable battery pack and quick battery charger for endless hours of hassle free fun.	50.00	40.00		Product size: 39.5×19.5×11cm	
Shen Qui Wei		3362	The Shen Qi Wei hull design and aerodynamics is made for speed. The power system utilises differential thrust (in techno speak, a vector push design), rather than the common rudder system for steering, this RC boat employs two professional large torsion propellers to generate huge thrust. Finally, two high-speed racing motors are used to drive each propeller making it a fast watercraft. Boat colour: Black and Silver	Power supply: 7.2V rechargeable battery for boat toy. Charging time: 4 hours Run time per charge: up to 20 minutes Control distance: 100m Full movement control: forward, left, right 3-4 hours is required to fully charge the included Ni-MH battery pack before first use - this will provide up to 20 minutes of continuous boating depending on your throttle usage, after which the battery pack will need re-charging with the included AC adapter charger.	50.00	40.00		Length: 360mm
